Distribution of surplus land

1984. SHRI KAILASH PATI MISHRA:
SHRI SHANKER SINH VAGHELA:
SHRI ASHWAN KUMAR:

Will the Minister of AGRICULTURE be pleased to state :

(a) what are the targets for different States and Union Territories in regard to distribution of the land in excess of land ceiling under the 20-point programme and what was the area of land found in excess of land-ceiling in each of the State/Union Territories, out of it what was the area of land acquired, the area of land distributed and the area of land for which ownership has been given to the allottees; and

(b) what has been the impact of shortfall in the achievement of the targets regarding provision of land ownership to the poor on the achievements of various programmes and projects relating to removal of poverty

THE MINISTER OF STATE IN THE DEPARTMENT OF RURAL DEVELOPMENT (SHRI CHANDULAL CHANDRAKAR): (a) Information sought is given in statements I and II. Government of India is not collecting information from States/Union Territories on area of land for which ownership has been given to the allottees.

(b) Redistributive land reforms form an intrinsic part of the anti-poverty strategy to increase productivity in agriculture and provide a permanent asset base to the rural landless poor for land based and supplementary activities. While over 61% of the area declared surplus has been distributed, about 8·9 lakh acres have been reserved for public purpose, social forestry etc. being unfit for cultivation and about 16·2 lakh acres are involved in litigation. As a result of cases pending in courts and tribunals, this area of land remains to be distributed for which the Government of India has impressed upon the States to take adequate legislative and administrative measures to expedite disposal of case and distribute the available land amongst the landless poor.
